

## Our Key Skills Curriculum

At St Keyna we emphasise the need for every child to be literate and numerate, whilst developing a range of skills to enable them to become lifelong learners and effective members of the community. To facilitate this we have designed our own skills based curriculum which we build into everything we do.

To ensure that our children are fully engaged with their learning, these key skills are further developed through;

- Our use of innovative topic work
- Opportunities to go on stimulating visits
- A wide range of engaging homework activities, challenges and independent projects
- Regular opportunities for the children to share their learning as part of class assemblies

**Together  
Everyone  
Achieves  
More**

We believe it is important whenever possible to link the children's interests and enthusiasms outside of school with the learning experiences that we offer them inside. This helps us to show the children we value their ideas and experiences, together with helping them to make sense of the world and place their learning within a real context.
