Back by popular demand! Buckle up for an enchanting musical adventure through space, performed by 250 local school children.

When 6 young astronauts find themselves stranded on different 'feeling planets', they'll need all their courage to reach their happy planet Zarg. It's not every day you come across trolls, pinching crabs and flaming fruit!

Stardust is Voices for Life's flagship singing and wellbeing project, designed to boost children's confidence through music.

My goals for Amber Class

Oracy!

- Communicate any learning not understood - it is ok to make mistakes and ask for help!
- Increased independence - take responsibility for their own things (bottles, reading records, books, jumpers etc).
- Try their best!
- For the children to feel happy and safe!

Thank you for coming 😊
